Kiotechagil to show pHorceful presence at VIV

Kiotechagil, the international supplier of natural high performance feed additives to enhance growth, health and sustainability in agriculture and aquaculture will have a strong presence at VIV.

The company will be highlighting their new acidifier, pHorce, which compliments their range of acid products. pHorce will provide a concentrated acid on a micropearl silica carrier and can be used for decontamination of raw materials, as an alternative to corrosive liquids, and in finished feed at 1 kg/t.

In addition Kiotechagil will be showcasing a new broad spectrum anti-mycotoxin product which will combine the benefits of their highly effective aluminosilicate, Sorbatox, with a primary growth yeast cell wall component high in both beta glucans and mannan oligosaccharides."

For further information visit the Kiotechagil stand C066 in Hall 9, email info@kiotechagil.com or call 0118 981 3333.
