

VIV Utrecht 2010

The VIV Exhibition in Utrecht has traditionally been the flagship event for the Company and this year was no exception as it was also the first time we were exhibiting exclusively as Kiotechagil. It was therefore a double disappointment that the ash cloud prevented most of the expected visitors from arriving from South America, South Africa and the Middle East, and Mediterranean areas. Those that were able to attend had either arrived early for conferences the previous week, or were able to drive or catch a train.

The visitors who did meet us were able to see our new literature not only on traditional products such as Salkil, Bact-a-Cid and Mastercube but also on our new acidifier pHorce. The exhibition was also a pre-launch introduction to a new binder, Alumos, which is going through the European registration system, We are hopeful that this new product will be on the market well before the second European exhibition this year, Eurotier, being held in Hanover, Germany in November. We look forward to seeing all those who could not get to Utrecht at this event.

Registration No. 321

Performance in **aquaculture** & **agriculture**

Registered at 78 Coombe Road, New Malden, Surrey KT3 4QS. No. GB 03345857. A Division of Kiotech International plc.
